

# ENTERPRISE ARCHITECTURE FRAMEWORKS

A person in a dark suit and tie is pointing their right index finger at a tablet held in their left hand. The background is dark with a network of white lines and circular nodes, some containing icons like a person or a gear. A glowing blue sphere with a grid pattern is visible in the background. The text is centered in a white, monospace-style font.

Enterprise architecture refers to the discipline that ensures business objectives are achieved by aligning business systems with the supporting information systems

A person in a dark suit and tie is pointing their right index finger towards a glowing digital globe. The globe is composed of a network of interconnected nodes and lines, with various icons like a person, a gear, and a document integrated into the network. The background is dark and blurred, showing the person's hands holding a tablet or book. The overall theme is technology, business, and global connectivity.

An enterprise architecture framework is the foundational structure upon which different architectures are developed.

# Types of EAFs

- The Open Group Architecture Framework (TOGAF)
- Zachman Framework
- Sherwood Applied Business Security Architecture (SABSA) \*\*
- Department of Defense Architecture Framework (DoDAF)
